Personnel: The field was occupied by about 800 nen. Many of them were fighter pilets who were being retrained on MiG-15's. Also located on the field was a radar school. 3. There was intensive flying activity during the night of 5 May, with about five MiG-15's carrying out take-off and landing processing the pilets.	25X1
The field was occupied by about 800 men. Many of them were fighter pilets who were being retrained on MiG-15's. Also located on the field was a radar school. 3. There was intensive flying activity during the night of 5 May, with about five MiG-15's carrying out take-off and lending processing flow 2000.	25X1 25X1
Prior to that there was local flying, mostly only in the morning. 4. Anti-Aircraft Installations:	dag.
No anti-aircraft guns were observed in the emplacements.	
5. Radar:	
A basket-shaped radar antenna was observed east of the barracks in the morthern of the field. On both days of observation, a radar trailer with cross-shaped antenna, the latter turning in a complete circle, stood in the south sector.	part
6. Vehicles:	
Six large new tank tracks without vehicle numbers were observed in the southern part of the field.	
Comment: It is believed that aircraft are from time to time sent here for training purposes from other airfields. S-E-C-R-B-T/MOFORM FLASH (18)	25X1
